

SUMMARISING

Good learners identify and collect the most important ideas from the text they are reading, viewing or listening.

**I know this is a VIP
(very important point)**

How could I re-tell this to someone else?

What are the main ideas?

Should I make a list or take notes?

I can highlight what is important

What VIP's link to the main theme?

I could draw a mind map of my VIP's

I can write the VIP's in my own words
