

a case of **CONSPIRACY?**

Wednesday 6th December 2017

Brisbane Water Secondary College Umina

Come explore the exciting world of Forensics & CSI in your own school where you'll get to be a Forensic Scientist and solve a murder!

A Forensic Science Workshop will be visiting our school on **Wednesday 6th of December, TERM 4, Week 9A**, to present a crime scene for the students to solve. You will hear about the suspects and be able to examine the evidence found at the scene. See the tests that were carried out in the Forensic Laboratories and come help solve the crime just like a real Forensic Scientist. Learn how real Forensic Scientists process crime scenes to find the vital clues they need to assist a Police investigation. Come and see how fingerprinting, DNA profiling, ballistics, microscopy, trace evidence transfer, gas chromatography (and much more) are used to identify the murderer.

This event is open to students from 7S1, 7S2, 7AVID and 7CAPA.

Make sure you don't miss out on this unique presentation.

Get your signed Permission Form back to school by

Friday 17th of November 2017
